

114MM RUBBER BOLLARD CAP

pittman[®]

OVERVIEW

The Rubber Bollard Cap Accessory is designed to provide a practical and durable addition to 114mm diameter steel bollards. Manufactured from robust rubber, it offers a reliable solution for adding reflective markings to bollards and improving their overall visibility.

Its compact design fits securely around the bollard, allowing a reflective strip to be fastened in place. The durable rubber construction is suitable for regular use and helps provide a neat, secure finish to the bollard.

Suitable for use across the 114mm steel bollard range, the Bollard Cap Accessory is ideal for car parks, access routes, commercial premises and other areas where improved bollard visibility and safety are required.

FEATURES

- **Durable Rubber Construction** – designed for reliable, long-lasting performance.
- **Improved Visibility** – allows a reflective strip to be securely fitted to the bollard.
- **114mm Compatibility** – suitable for all 114mm diameter steel bollards in the range.
- **Quick and Easy Installation** – simple to fit for a practical bollard upgrade.

TECHNICAL DATA

SPECIFICATIONS	DETAILS
