

FLEET CARGO BIKE RACK

pittman[®]

OVERVIEW

The Fleet Cargo Bike Rack is the ultimate solution for secure and efficient bike parking. Built to handle the demands of outdoor use, this rack is designed to last, giving you peace of mind no matter the weather. Its thoughtful design prioritises easy installation, so you can have it up and running in no time—perfect for busy spaces where time is valuable.

What sets this rack apart is its suitability for cargo and delivery bikes, providing the extra space these larger bikes need without compromising on functionality. And when it comes to security, the Fleet Cargo Bike Rack has you covered, ensuring bikes are safely locked and protected. Whether you're managing a public bike parking area or supporting local delivery operations, this rack combines durability, ease, and security for a smart, long-term investment.

FEATURES

- Highly durable - fully welded steel design, suitable for outdoor use
- Reduced rust - hot-dip galvanised to protect from weathering
- Fast install - easily bolts down via the integrated base plates
- High security - lock bikes via frame for added security
