QCHAMP WALLTOUGH BELT BARRIER

Easy Access Control with Fast Installation

pittman[®]

OVERVIEW

The QChamp WallTough Belt Barrier is a reliable solution for managing high-traffic areas. Its durable steel mounting plate ensures quick and secure installation on any flat surface, keeping the barrier firmly in place even in busy environments.

The vibrant striped belt extends up to 10' and features an integrated belt brake, eliminating sudden snaps and allowing for smooth, controlled retraction every time.

Weighing just 2 lbs, this lightweight yet robust barrier is easy to install and handle, making it perfect for controlling or restricting access in any space.

PRODUCT FEATURES

- Steel Mounting Plate - Ensures secure installation on any flat surface for stability in high-traffic areas.
- 10' Striped Belt with Brake - Prevents sudden snaps for smooth and safe retraction.
- Lightweight Construction - Weighs just 2 lbs, making it easy to install and reposition.
- Durable Design - Perfect for managing access in busy environments with minimal maintenance.

TECHNICAL DATA

SPECIFICATION	DETAILS
Material	Steel
Cartridge Color	Black
Cartridge Height	127 mm
Cartridge Diameter	76.2 mm

HOW IT WORKS

- 1. Mount the Barrier:** Begin by bolting the barrier securely to any flat indoor surface.
- 2. Extend the Belt:** pull out the 10-foot belt to secure corridors or block doorways, enhancing safety in your space.
- 3. Secure the Belt:** when finished, gently guide the belt back into the casing to prevent tangling.
- 4. Retract the Belt:** when finished, gently guide the belt back into the casing to prevent tangling
