

SEMI DOME SUB SURFACE MOUNT STAINLESS STEEL BOLLARD

OVERVIEW

The Semi Dome Stainless Steel Bollard provides reliable protection and a sleek, professional appearance, making it ideal for entrances, pedestrian areas, retail spaces, and commercial premises.

Made from 304-grade stainless steel, this bollard offers exceptional corrosion resistance, significantly reducing maintenance and replacement costs, while the brushed 240-grit finish makes it ideal for commercial and retail environments, helping to create welcoming yet protected spaces.

Designed for sub-surface installation, the bollard is securely embedded directly into concrete, ensuring maximum strength and stability. This robust mounting method provides a clean, seamless appearance and helps prevent accidental damage from vehicles, shopping trolleys, or equipment impacts.

FEATURES

- Sub surface mounting – secure installation and impact resistance
- 304-grade stainless steel – high corrosion resistance suitable for outdoors
- 240-grit brushed finish – ideal for retail and commercial spaces
- 1000 mm above-ground height – ideal for entrances and storefronts

TECHNICAL DATA

SPECIFICATIONS	DETAILS
Product Code	755842
Total Height	1300 mm
Height (above ground)	1000 mm
Diameter	114 mm
Wall Thickness	2 mm
Material	304 Stainless Steel
Finish	Brushed 240-grit
Mounting	Sub Surface
