

ARMCO 90 DEGREE CORNER GALVANISED

pittman[®]

OVERVIEW

Create seamless, impact-resistant joins in your Armco barrier system with the Armco 90° Galvanised Corner.

Designed for external right-angle connections, this corner section securely links two barriers to form a stable, continuous run — ensuring no gaps in site protection.

Built from durable galvanised steel, it's engineered to withstand heavy impacts and maintain site safety in high-traffic or industrial environments. Ideal for custom layouts, the Armco 90° Corner helps you build a barrier system that fits your site perfectly.

FEATURES

- Forms strong 90° joins between Armco barriers
- Provides full corner protection and structural stability
- Galvanised finish for long-lasting corrosion resistance
- Compatible with standard Armco barrier sections

TECHNICAL DATA

SPECIFICATIONS	DETAILS
Product Code	123456
Length	450 mm
Width	450 mm
Height	315 mm
Material	Galvanised Steel
Fixings	8 x Armco M16x35mm Lap Bolts
Use:	Bolts onto beam end to form a corner
