OUTDOOR NOTICE BOARDS & POSTER DISPLAY CASES

## "CLASSIC" OUTDOOR NOTICE BOARDS

### TECHNICAL SPECIFICATIONS

- HINGE FREE:** Wear resistant, warp proof integrated hinge.
- LOCKABLE:** Exclusive tamper-proof safety lock with hidden latch.
- FULL DISPLAY:** 100 % of the display surface visible (lock mounted in the frame not the glazing).
- STRENGTH:** Robust profile and available in 4mm anti-vandal Plexichoc™ or safety glass.
- PRACTICAL:** Doors easily replaceable in case of major vandalism.
- WATERPROOF:** Elastomer seal and anti-condensation vents.

#### NOTICE BOARD

- Format: single sided.
- Display area: from 4 to 21 A4.
- Profile depth: 58 mm
- Glazing: vandal-resistant 4 mm Plexichoc® or 4 mm tempered safety glass.
- Opening method: side opening (door is reversible) or raising door.
- Raising doors: suspended on gas struts for easy opening and support.
- Locking: tamperproof safety lock with supplied 2 keys, two locks on H 1350 mm and raising door models.
- Waterproofing: elastomer seal.
- Back plate finish: galvanised steel back in a white lacquered finish for use with magnets. External back finished in RAL 7032 unless otherwise specified.
- Frame finish: silver anodised aluminium or painted in our Vitincom® colour offering.
- Installation: wall or post mounting (optional).
- Supplied with Procity® magnets (1 per A4).

#### Post kits:

- Post kit: 2 post 60 x 40 mm either silver anodised or painted, delivered with 4 stainless steel mounting brackets.
- Installation: concrete directly in the ground or on base plates.\*
- Plus post: 60 x 40 mm either silver anodised or painted, delivered with 2 stainless steel mounting brackets.
- Used as a central post to align several notice boards.
- Installation: concrete directly in the ground.

\*If the product is to be likely to be exposed to strong winds, we strongly recommend post kits to be concreted directly in the ground.

#### Optional decorative header panel:

- Header panel: 2 mm plasma cut steel.
- 3 shapes: Dome, Wave or Rectangle
- Installation: attached to a wall using pre-drilled mounting holes (fixings not supplied) or on the post kit using fixings provided.

#### Other options:

- LED kit (supplied for self-assembly)\*
- Additional magnets.

\*LED ribbons and transformers are not factory fitted and require installation by a qualified electrician to comply with

applicable safety regulations.
