

Product Code: 765440

COMPACT VEHICLE HEIGHT RESTRICTOR FIXED

Control access on public and private premises

pittman[®]

OVERVIEW

The Fixed Access Height Restrictor is designed to provide reliable entry control while being durable and simple to use. Its robust construction ensures long-term protection in all weather conditions.

The lightweight design allows for quick and easy installation, making it ideal for busy work sites or public spaces. Its adjustable setup offers flexibility to suit various clearance requirements, while the optional features enhance safety by preventing accidental vehicle impacts.

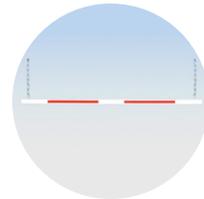

This barrier is a solid investment for managing site access efficiently and securely without the hassle of complicated maintenance or setup procedures.

PRODUCT FEATURES

- Hot-dip galvanised - reduced risk of rusting and corrosion
- Adjustable - adjust height from 2.8 to 3 metre
- Easy installation - easy assembly and bolts directly into the ground
- Durable - strong but lightweight aluminium crossbar
- Optional nudge bar - further reduce heights as needed
