GHP SEMI-VERTICAL BIKE RACK

4-HEAD

Durable, Space Efficient Bike Storage

pittman[®]

OVERVIEW

The GHP Semi Vertical Bike Rack is the perfect solution for keeping your bikes secure and organized while maximizing space. With its clever high-low design, it easily accommodates up to 4 bikes without crowding or tangling handlebars.

Built for durability, this rack ensures long-lasting protection against the elements, being rust and corrosion-resistant. Its thoughtful design allows you to simply roll the bike wheels into place for quick and effortless storage. Plus, the built-in locking hoops add an extra layer of security, giving you peace of mind. The rack bolts securely into concrete, providing a stable and reliable foundation. Whether for a home, office, or public space, this bike rack is a smart and practical choice.

PRODUCT FEATURES

- Weather-resistant steel - made with hot-dip galvanised carbon steel
- Maximise space - the high-low design optimises storage and prevents handlebar collisions.
- Enhanced security - built in locking hoops for additional security.
- Effortless access - simply roll the wheels into the track for smooth storage.
- Stable and secure installation directly into concrete.
