

LITE CABLE PROTECTOR RAMP

pittman[®]

OVERVIEW

The Lite Cable Protector Ramp is designed to provide safe, reliable protection for cables and hoses in workplaces, warehouses, construction sites, and event spaces. Manufactured from durable polyurethane rubber, it helps reduce trip hazards while protecting cables from foot traffic and light vehicle use.

Its flexible construction contours to uneven surfaces and features three integrated cable channels for standard power cables, hoses, and communication lines. High-visibility yellow safety stripes improve awareness, making it ideal for busy pedestrian areas.

Designed for quick installation and easy transport, the lightweight 2-metre ramp can be rolled up for convenient storage when not in use. Built for long-lasting performance, it provides a durable, low-maintenance cable protection solution for commercial and industrial environments.

FEATURES

- Durable polyurethane rubber provides long-lasting protection in demanding environments.
- Three integrated cable channels keep power cables and hoses securely organised.
- High-visibility yellow safety stripes improve awareness and help reduce trip hazards.
- Flexible, lightweight design allows for quick installation, easy transport, and convenient storage.

TECHNICAL DATA

SPECIFICATIONS	DETAILS
Product Code	SKU: 751206
Lenght	2000 mm
Height	16 mm
Width	80 mm
Material	polyurethane rubber
Color	Black with Yellow Stripe
