

M10 X 110MM COACHSCREW SET OF 8

OVERVIEW

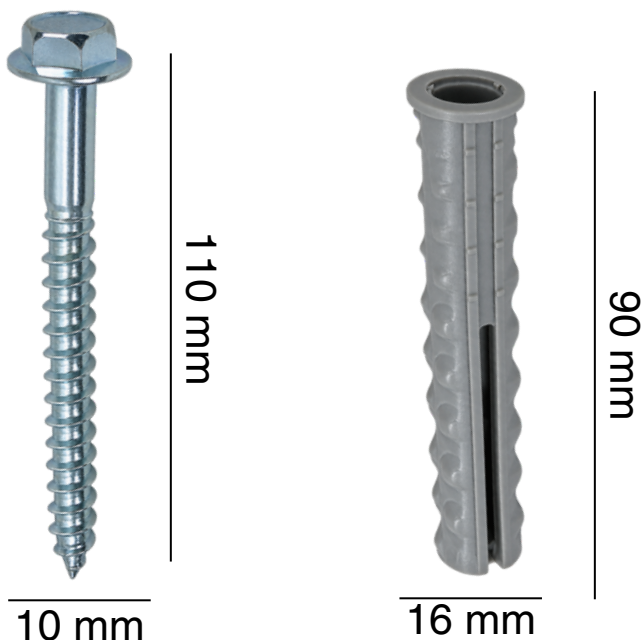

The M10 x 110mm Coach Screw Set is supplied as a set of 8 fixings, providing a strong and reliable solution for securing outdoor traffic and safety products. Ideal for use with speed bumps, bollards and bike racks, the set provides everything required for a secure installation.

Each fixing includes an M10 x 110mm coach screw with an integral skirt washer and a matching 16 x 90mm rawlplug, helping to provide a firm and secure hold.

The zinc-plated screws offer added resistance against corrosion and everyday wear, making the set suitable for long-lasting installations.
