

PITTMAN GUARDZ HOOP BARRIERS

pittman[®]

OVERVIEW

Pittman's Guardz Hoop Barriers provide a strong, physical barrier to help protect key areas in warehouses, loading bays, and industrial facilities.

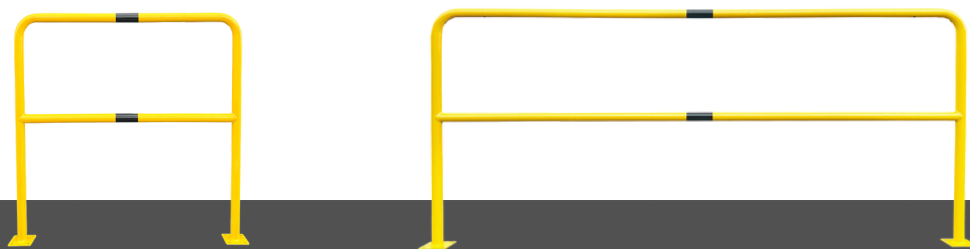

Constructed from thick steel tubing and securely mounted on base plates, these hoop-style barriers are ideal for marking pedestrian zones, shielding vulnerable assets, or guiding vehicles. Finished in bright safety yellow with waterproof black 3M markings, they're designed to stand out in fast-moving environments where awareness is critical.

Available in 1000mm and 2000mm widths, Guardz Hoop Barriers install quickly and perform reliably under pressure.

FEATURES

- Heavy-duty steel construction – provides a strong physical barrier
- Galvanised and powder coated – durable and corrosion resistant
- Bright yellow finish with black markings – enhances visibility
- Two width options – 1000mm and 2000mm to suit various spaces

TECHNICAL DATA

Product Code	755856	755857
Height	1000 mm	2000 mm
Material	Galvanised Steel	
Finish	Powder Coated	
Colour	Yellow with Black Reflective Strip	
Fixings Included	No	
Recommended Fixings	8 x M10 x 110mm Coachscrew
