

PITTMAN GUARDZ WAREHOUSE BOLLARDS

pittman[®]

OVERVIEW

Pittman's Guardz Warehouse Bollards provide a durable and easily visible barrier to help protect key areas from accidental contact in busy industrial environments.

Constructed from thick steel tubing and finished in bright yellow with a waterproof 3M black marking, these bollards are designed to deter low-speed impacts from forklifts, pallet trucks, and other site traffic. Ideal for use around racking ends, loading bays, walkways, or vulnerable structures, they act as both a visual warning and a physical deterrent.

Available in three diameters (76mm, 114mm, and 152mm) to suit different risk levels across your site.

FEATURES

- Heavy-duty steel – durable protection against low-speed contact
- Galvanised and powder coated – long-lasting corrosion resistance
- Bright yellow with black 3M marking – improves visibility and safety
- Available in three diameters (76mm, 114mm, and 152mm)

TECHNICAL DATA

			
Product Code	755853	755854	755855
Height	1000 mm	1000 mm	1000 mm
Diameter	76 mm	114 mm	152 mm
Material	Galvanised Steel		
Finish	Powder Coated		
Color	Yellow with Black Strip		
Reflective Strip	3M adhesive-backed PET		
Fixings Included	No		
Recommended Fixings	4 x M10 x 110mm Coachscrew
