

PITTMAN HUDSON BIKE SHELTER

Available in Blue, Black & Grey.

pittman[®]

OVERVIEW

The Hudson Bike Shelter is a robust, weather-resistant bicycle storage solution designed to meet the demands of modern urban environments.

Built for long-term durability, this surface-mounted shelter features a spacious layout measuring 4100mm in length, 2213mm in width, and 3217mm in height. Ideal for safely accommodating multiple bicycles without occupying excessive space.

Its 3mm thick polycarbonate (PC) roof provides superior protection against UV rays and harsh weather, ensuring year-round usability.

The shelter's steel frame is hot dip galvanized and powder coated, delivering exceptional resistance to corrosion and reducing the need for maintenance.

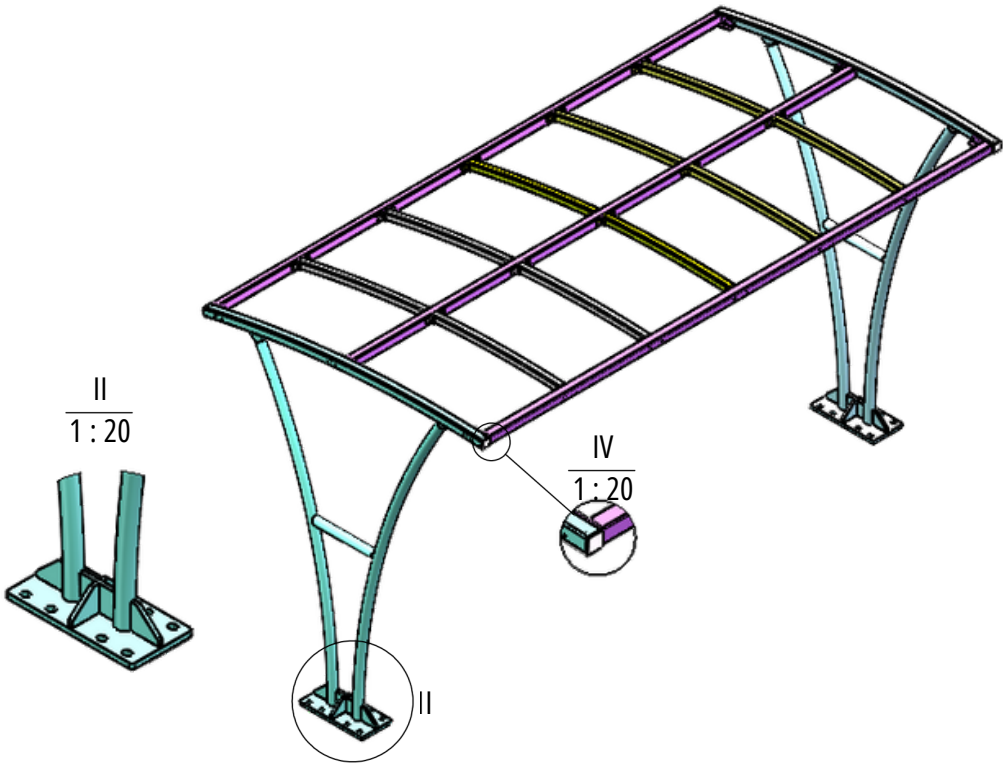

FEATURES

- **Hot dip galvanized and powder coated** - delivering exceptional resistance to corrosion and reducing the need for maintenance.
- **High-strength roof material** - Provides superior protection against UV rays, rain, and snow for year-round use
- **Spacious design** - offers ample storage capacity for multiple bicycles while maintaining a compact site footprint
- **Sub-surface mounting** - enables stable, tamper-resistant installation on concrete or paved areas.

TECHNICAL DATA

Product Code	755861	797873	(Black)
Height	2425 mm		
Depth	2215 mm		
Width	4100 mm		
Finish	Powder Coated		
Color	Blue	Grey	Black
Material	Hop Dip Galvanised Steel
