

Item number: 40271

Steel tube bollard Ø 273 x 5 mm

item description:

Steel tube bollard Ø 273 x 5 mm thick, total length: 1500 mm, with welded steel cap, stationary

designated purpose:

For stopping, and securing or saving of areas.

technical specifications:

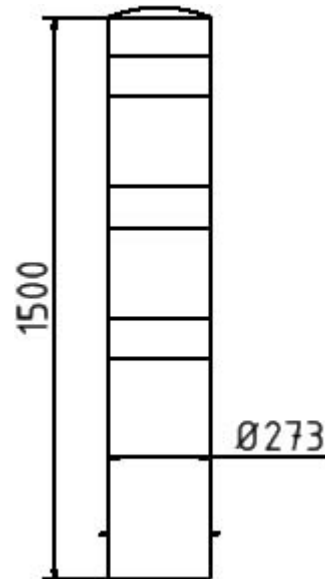

weight: 50,00 kg/pc

material:
S235 JR

surface:

hot dipped galvanized acc. to DIN ISO 1461

Item number: 40271B

item description:

Steel tube bollard Ø 273 x 5 mm thick, hot-dip galvanized and white coated with three red reflecting stripes, total length: 1500 mm, with welded steel cap

designated purpose:

For stopping, and securing or saving of areas.

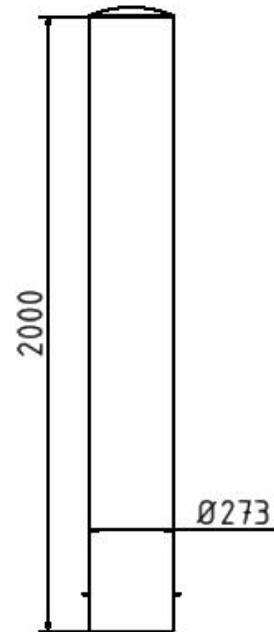

technical specifications:

weight: 50,00 kg/pc
material:
S235 JR

surface:
hot dipped galvanized and powder coated

Item number: 40272

Steel tube bollard \varnothing 273 x 5 mm

item description:

Steel tube bollard \varnothing 273 x 5 mm thick, hot-dip galvanized, total length: 2000 mm, with welded steel cap, stationary

designated purpose:

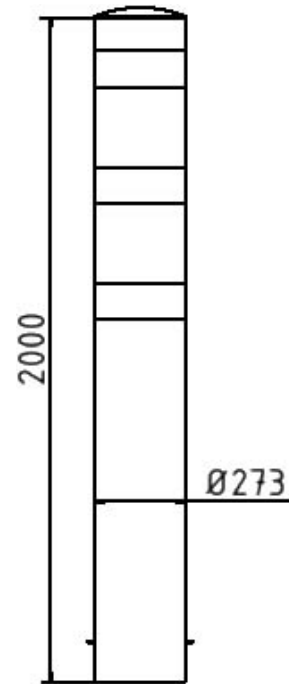

To protect buildings from damage and to mark paths.

technical specifications:

weight: 68,00 kg/pc
material:
S235 JR

surface:
hot dipped galvanized acc. to DIN ISO 1461

Artikelnummer/Itemnumber: 40272B

item description:

Steel tube bollard $\text{Ø} 273 \times 5$ mm thick, hot-dip galvanized and white coated with three red reflecting stripes, total length: 2000 mm, with welded steel cap

designated purpose:

For stopping, and securing or saving of areas.

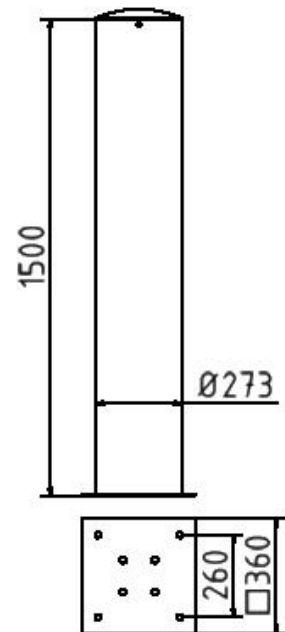

technical specifications:

weight: 68,00 kg/pc
material:
S235 JR

surface:
hot dipped galvanized and powder coated

Item number: 40273

Steel tube bollard Ø 273 x 5 mm

item description:

Steel tube bollard Ø 273 x 5 mm thick, to be fixed by plugs, with base plate 360 x 360 mm, total length: 1500 mm, hot-dip galvanized, total length: 1500 mm, with welded steel cap, stationary

designated purpose:

For stopping, and securing or saving of areas.

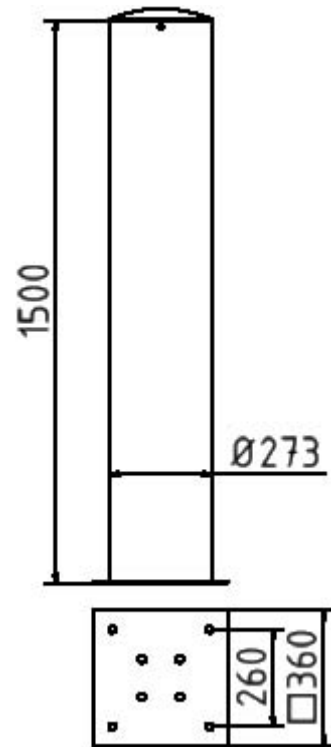

technical specifications:

weight: 60,00 kg/pc

material:
S235 JR

surface:
hot dipped galvanized acc. to DIN ISO 1461

Artikelnummer/Itemnumber: 40273B
